

Fresher Solutions. That's Ryder.

Better Packing, Warehousing and Transportation – Every Time.

As a decision maker in the food and beverage sector, you have a lot on your plate. You're looking at everything from fleet maintenance to inventory management, warehousing to driver recruitment, keeping up with changing consumer demand and complying with strict regulations. Ryder understands the particular challenges of your industry and we can help.

Deep Industry Experience

Ryder has an unrivalled level of experience in packaging, warehousing and transporting goods, gained through many years of working with thousands of food and beverage clients, including the top ten U.S. food and beverage companies according to FORTUNE.

With more than 80 years of success, Ryder has proven experience to meet market demands with a full menu of solutions for today and tomorrow. Our industry specialists develop fleet management and supply chain solutions that don't just respond to industry needs – they anticipate them. We know fleet management and supply chain best, so you get the best solutions with the results you've come to expect from Ryder.

Packing

When freshness, quality and consistency are at stake, food and beverage companies have no margin for error. As your contract packing partner, Ryder can help you increase speed to market, handle overflow capacity, and control inventory. Through our

diverse selection of packing, labeling, kitting and assembly services, state-of-the-art equipment and 1+ million linear feet of efficient packing lines, Ryder has the resources and expertise to handle a variety of products, sizes and blends.

Our specialized packing services include:

- Refrigerated and frozen food packing
- Vertical and horizontal form-fill-seal
- Display pallets and shippers
- Special display packs
- Manual, semi-automatic and automatic cartoning
- Rainbow pallet assembly
- Variety packs & promotional builds
- Label application
- Food safety regulations compliance

Warehousing

Take the guesswork out of optimizing warehousing operations and transform your warehouse into a smarter, more agile operation to move your products with maximum speed, accuracy, safety and cost efficiency. Operating more than 235 facilities and 35+ million square feet of warehouse space, including 3.4 million square feet of refrigerated or frozen storage, dedicated to multi-client sites, Ryder offers flexible solutions – no matter how challenging or diverse your storage needs may be.

Transportation

As a long-standing leader in the dedicated and for-hire transportation industry, our customers rely on us to provide solutions built on proven performance, time after time, so they can keep their fleet operation and business running smoothly and consistently. With 99% on-time delivery, Ryder Dedicated solutions ensures the freshest food arrives where it's needed – on-time, every time.

Our vast network of vehicle and maintenance facilities, along with the latest in tracking technologies and the best trained drivers in the industry help you manage equipment breakdowns, technician and driver shortages, and tight time windows to maximize fleet uptime, fuel efficiency and reduce overall costs.

Our transportation solutions include:

- Full Service Lease
- Vehicles, tractors and trailers specification and configuration
- Natural Gas and fuel efficient specs
- Contract Maintenance
- Dedicated Transportation
- Driver recruiting, training and retention
- Transportation Management
- Transportation network design and optimization
- Commercial Rental
- Used Vehicle Sales
- Ryder Fleet Products
- Fuel Management and protection services

Ensuring Safety, Quality and Regulatory Compliance

As safety regulations become more stringent, staying in compliance has become more challenging. While others may talk about safety, Ryder has the track record to prove it – with a commitment to quality and safety that goes well beyond compliance, leading us to become the first transportation company to win the National Safety Council's highly coveted Green Cross for Safety medal.
