

Ryder Dedicated Transportation Solutions Fact Sheet

RYDER DEDICATED TRANSPORTATION SOLUTIONS (DTS)

With more than 8,000 vehicles and more than 800 fuel and service facilities, Ryder Dedicated Transportation Solutions (DTS) is ideal for companies struggling to maintain low CSA scores, those with specialized equipment or product handling needs, complex routes, rigorous service level agreements, and/or high driver turnover. Ryder Dedicated helps fleets be nimble, run lean, and stay safe.

DTS provides an unmatched safety track record along with the management expertise, fleet leverage, and driver performance to deliver outstanding service to your customers. With DTS, businesses are able to adapt to changing demand, staffing, and service needs, using skilled drivers that have been properly hired, trained, and managed. Ryder helps fleets meet unique handling needs with specialized vehicles and equipment customized for their industries and operations, and expertly maintained by a network of more than 5,900 technicians.

SERVICES
