

RYDESMART®: INNOVATIVE SOLUTIONS FOR BETTER FLEET INSIGHTS

In today's challenging transportation climate, you need solutions that offer choice and flexibility to keep your fleet moving. With RydeSmart, Ryder's turnkey telematics program, you can benefit from this extra choice and flexibility as well as increased real-time visibility and control. Most importantly, RydeSmart solutions can help your fleet ensure compliance to federal regulations, including the Electronic Logging Device (ELD) Mandate and driver vehicle inspection reports.

Through RydeSmart, you benefit from an all-inclusive integrated telematics experience with your Ryder lease or contract maintenance solution.

RydeSmart lets you take full advantage of the capabilities of your fleet while streamlining fleet operations by allowing you to:

- Consolidate telematics billing into your Ryder bill
- Monitor key vehicle attributes such as location, speed, and idle time
- Attain real-time performance metrics
- Service your telematics system when you service your vehicle
- Benefit from an extended warranty
- Expand analytics and reporting capabilities

With RydeSmart, there is no upfront capital expense or installation costs to get started. Your monthly fee covers equipment, installation, troubleshooting and repair, service, and regular vehicle data usage.

As a Ryder customer, RydeSmart works for you – driving efficiencies, ensuring compliance, and giving you the choice and flexibility you need for your business.
